## NIKO LTD

### **ENVIRONMENTAL POLICY**

It is the environmental policy and overall business objective of NIKO LTD to provide services of the highest quality, taking due regard specifically to environmental issues and in compliance with the clients specified requirements.

This Environmental Management System and subsequent Environmental Register are published as a direct response to the requirements defined by BS EN ISO 14001: 1996.

The Company will constantly monitor its environmental performance and will implement improvements where appropriate.

The Environmental Management System is described in the Environmental Management System Manual and detailed in the Environmental register. To further the environmental aims of the Company we have ensured that all employees understand and adhere to the requirements of this policy and the contents of the Environmental Management System.

The Company recognises that genuine commitment to understanding the present and future needs of the environment and its clients is essential to the achievement of these objectives. To this end the company continually strives to ensure that the needs and reasonable expectations of it's clients, along with it's environmental obligations are realised in the method of the services it provides.

It is also the objective of NIKO LTD to enhance its reputation and it's environmental responsibilities in order to gain wider recognition in its field of expertise.
